LIMITED WARRANTY

The Little Tikes Company makes fun, high quality toys. We warrant to the original purchaser that this product is free of defects in materials or workmanship for one year from the date of purchase (dated sales receipt is required for proof of purchase). At the sole election of The Little Tikes Company, the only remedies available under this warranty will be either replacement of the defective part or replacement of the product. This warranty is valid only if the product has been assembled and maintained per the instructions. This warranty does not cover abuse, accident, cosmetic issues such as fading or scratches from normal wear, or any other cause not arising from defects in material and workmanship. U.S.A. and Canada: For warranty service or replacement part information, please visit our website at www.littletikes.com, call 1-800-321-0183 or write to: Consumer Service, The Little Tikes Company, 2180 Barlow Road, Hudson OH 44236, U.S.A. Some replacement parts may be available for purchase after warranty expires - contact us for details. Outside U.S.A. and Canada: Contact place of purchase for warranty service.

Wet and Dry Inflatable Bouncers Warranty:
We warrant to the original purchaser that the fabric in this product is free of defects in materials or workmanship for 90 days from the date of purchase, and the blower is free of defects in material or workmanship for one year from the date of purchase (dated sales receipt is required for proof of purchase). This warranty gives you specific legal rights, and you may also have other rights, which vary from state/country to state/country. Some states/countries do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. *The warranty period is three months for daycare or commercial purchasers.

WARNING
ELECTROCUTION RISK:
- KEEP ALL ELECTRICAL LINES, RADIOS, SPEAKERS AND OTHER ELECTRICAL DEVICES AWAY FROM THE CONSTANT AIR INFLATABLE.
- DO NOT PLACE THE CONSTANT AIR INFLATABLE NEAR OR UNDER OVERHEAD ELECTRICAL LINES.

WARNING: FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH.

Do not use extension cords with this product. Outdoor use only.

Read all instructions before assembling this inflatable device. Keep instructions for future use.

CAUTION - ELECTRICALLY OPERATED PRODUCT OPERATION OF BLOWER FAN UNIT NOT RECOMMENDED FOR CHILDREN UNDER 8 YEARS OF AGE. AS WITH ALL ELECTRONIC PRODUCTS, PRECAUTIONS SHOULD BE OBSERVED DURING HANDLING AND USE TO PREVENT ELECTRIC SHOCK.

F 4 repair patches

(BALLS SOLD SEPARATELY)

IMPORTANT - PLEASE READ

ALWAYS SECURELY ANCHOR THE UNIT TO THE GROUND. Do not use the unit if wind speeds exceed 20mph (32 km/h). Use great care operating the unit if wind speeds begin to rise, or when wind gusts suddenly exceed 20 mph (32 km/h). Know the warning signs. Read and follow the "Wind Speed Estimation" table below.

<table>
<thead>
<tr>
<th></th>
<th>Wind speeds (mph)</th>
<th>Description</th>

**Repair Patch Instructions**

1. Deflate the item, clean the area and allow to dry thoroughly.
2. Cut a portion of the patch to the size needed and round the corners. (See Fig. 1 & 2).
3. Remove the adhesive backing from the patch material, position the patch over the damaged area and smooth out any bubbles.
4. Allow to sit for 30 minutes before re-inflating.

**Bouncer Maintenance**

- As an outdoor product, the bouncer is subject to wear and deterioration. Inspect for signs of fabric failure; weak or torn surfaces must be repaired promptly.
- To keep the product clean: wipe the bouncer with a dry cloth or a cloth dampened with a neutral, non-flammable, non-toxic solution.
- To keep the product clean: wipe the bouncer or blower using a dry cloth or a cloth dampened with a neutral, non-flammable, non-toxic solution.
- Blower must be unplugged before servicing.
- Do not operate blower with a damaged cord or plug, after the appliance malfunctions or has been dropped or damaged in any manner.
- Do not use product until a properly grounded outlet (sketch A) can be installed by a qualified electrician.
- For a grounded, cord-connected product, rated less than 15 amperes and intended for use on a nominal 110-120-volt supply circuit, these instructions should be followed. This product is for use on a nominal 110-120-volt circuit, and has a grounding plug that looks like the plug illustrated in sketch A. Temporary adapters should not be used.
- Do not operate blower with a damaged cord or plug, after the appliance malfunctions or has been dropped or damaged in any manner.

**Blower Maintenance**

Blower must be unplugged before servicing.
- Product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing, or parts, and that in the event such damage is found, the product should not be used until properly repaired. If these checks are not carried out, the product could overturn or otherwise become a hazard.
- The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower.
- Do not immerse the fan in water. To clean, wipe with a damp cloth. The blower does not require any lubrication and has no user serviceable parts.
- Do not use product until a properly grounded outlet (sketch A) can be installed by a qualified electrician.
- For a grounded, cord-connected product, rated less than 15 amperes and intended for use on a nominal 110-120-volt supply circuit, these instructions should be followed. This product is for use on a nominal 110-120-volt circuit, and has a grounding plug that looks like the plug illustrated in sketch A. Temporary adapters should not be used.

**Disposal**

- Disassemble and dispose of the equipment in such a manner that no hazardous conditions exist at the time the equipment is discarded.
- Blower should be returned to a collection center capable of processing electrical/electronic waste.
- Never leave the blower outside in the rain or exposed to the elements when not in use. When in use, do not place the cord across traffic areas, water or damp areas. The blower should be placed on a stable surface and anchored per product instructions. The power cord of the blower is equipped with a Ground Fault Circuit Interrupter (GFCI) plug.
  1. Make sure that the blower switch is in the “OFF” position. Plug the blower into a properly grounded 110-120V GFCI outlet.
  2. If the GFCI has been tripped, press the “RESET” button to restore power to the blower.
  3. Set the power switch of the blower to “ON” to inflate. After use, turn the power to “OFF”.
  4. To disconnect, have an adult grip it tightly and pull the plug from wall outlet.

**Blower Cleaning and Storage**

Do not immerse the blower in water. Unplug the blower before cleaning. To clean: wipe with a damp cloth. The blower does not require any lubrication and has no user serviceable parts.

**Use Only on GFCI Protected Receptacles**

This product should be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric circuit. This product is equipped with a cord having a grounding wire with an appropriate grounding plug. This plug must be plugged into an outlet that is properly installed and grounded in accordance with all local codes and ordinances. **DANGER:** Improper installation of the grounding plug can result in a risk of electric shock. If repair or replacement of the cord or plug is necessary, do not connect the grounding wire to either flat blade terminal. The wire with insulation having an outer surface that is green, with or without yellow stripes, is the grounding wire. Check with a qualified electrician or serveman if the grounding instructions are not completely understood, or if in doubt as to whether the product is properly grounded. Do not modify the plug provided; if it will not fit the outlet, have the proper outlet installed by a qualified electrician. For a grounded, cord-connected product, rated less than 15 amperes and intended for use on a nominal 110-120-volt supply circuit, these instructions should be followed. This product is for use on a nominal 110-120-volt supply circuit, and has a grounding plug that looks like the plug illustrated in sketch A. Temporary adapters should not be used.

**Safety Warnings: ELECTRICAL BLOWER**

**WARNING:** Failure to follow these instructions could result in serious injury or death.
- Cautionary statements which should be read before beginning assembly.
- Adult setup and supervision required.
- Use only with Ground Fault Circuit Interrupter (GFCI) receptacle.
- This blower is for residential use only. It is not intended to be used in commercial or industrial settings.
- Never insert fingers, pencils or any other object through the grill at any time.
- Do not operate blower with a damaged cord or plug, after the appliance malfunctions or has been dropped or damaged in any manner.
- Do not operate the blower in the presence of explosive and/or flammable fumes.
- Never connect the blower to any solid-state speed control device.
- To reduce the risk of fire or electric shock, do not use this blower with any solid-state speed control device.
- Always unplug the blower before servicing.
- Outdoor use only.

**INSTRUCTIONS FOR BLOWER INSTALLATION**

**NOTE:** Set up as close to power source as possible. The product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing, or parts, and that in the event such damage is found, the product should not be used until properly repaired. Never leave the blower outside in the rain or exposed to the elements when not in use. When in use, do not place the cord across traffic areas, water or damp areas. The blower should be placed on a stable surface and anchored per product instructions. The power cord of the blower is equipped with a Ground Fault Circuit Interrupter (GFCI) plug.

1. Make sure that the blower switch is in the “OFF” position. Plug the blower into a properly grounded 110-120V GFCI outlet.
2. If the GFCI has been tripped, press the “RESET” button to restore power to the blower.
3. Set the power switch of the blower to “ON” to inflate. After use, turn the power to “OFF”.
4. To disconnect, have an adult grip it tightly and pull the plug from wall outlet.

**Grounding Instructions for All Grounded, Cord-Connected Products**

This blower is not a toy. Use under the direct supervision of a competent adult. Keep away from children.
Safety Warnings: SET UP

ADULT SUPERVISION AND SET UP REQUIRED: This product should be inflated or deflated only by a competent adult. Follow all instructions provided.

- WARNING! Falls onto hard surfaces can result in head or other serious injuries. Never place on concrete, asphalt, wood, packed earth, grass or other hard surfaces. Carpet over hard floors may not prevent injury.
- WARNING! Only for domestic use. Intended for outdoor domestic family use only. Not for use in public areas or as a rental.
- Product is heavy. Use caution when lifting.
- Product should never be dragged across concrete, pavement or other rough surfaces.
- WARNING! Keep away from fire. Keep fabric clear of all flame and ignition sources.
- Do not set up in windy or rainy conditions: sudden gusts of wind may lift the product off of the ground.
- Product can be installed in any orientation in relation to the sun, since there are no metal components or surfaces that can absorb excessive solar radiation.
- Place on level ground and firm grass or soil to allow proper use of stakes.
- Minimum clearance zones 6 ft. (1.8 m) in any direction: Place at least other objects. Objects to be avoided include but are not limited to fences, buildings, trees, overhead branches, laundry lines, electrical wires, walls, or bodies or sources of water.
- Make sure the area around the product is secure by adding safety barriers, if necessary, to keep young children and pets from gaining access.
- Electrical cord must not be passed under the air filled devices (inflatable bounce) and interfere with its operation.
- The bouncer uses a main powered blower (air pump) to maintain pressure, only to be used by an adult.
- Only the blower supplied should be used for inflation.
- Do not use extension cords with this product. Set up as close to power source as possible. The blower should be securely anchored to the ground before use.
- CAUTION: the blower is capable of moving large volumes of air very quickly. Place the blower in an area where it will not draw in dirt or leaves. Keep blower and power cord away from children, water and traffic.
- ATTENTION: Blower should remain on and continuously inflate bouncer during use. Airflow through seams is normal. Do not try to seal or repair seams.
- Do not use the product if wind speed exceeds 20mph.
- Do not consume food, drink and gum on this product.

Safety Warnings: DEFlation & Storage

- Do not allow children to play together who are unevenly matched in weight and height.
- Before and during use, check for air loss. Check blower is properly connected.
- Always check the product and all its anchorage points before and during use, and to re-secure as appropriate.
- If applicable, remove water and debris from pocket steps after each play cycle.
- After inflation, the blower should run continuously while children are playing.
- Prior to deflating, remove all children.
- Always deflate product after use, and store indoors.
- To be used on soft ground only, the impact absorbing material (e.g. Rubber mulch, engineered wood fiber (EWF) etc.) shall be at least 1.8 m (6 ft) from the opening in all directions away from the inflatable device.
- Users must be discouraged from attempting any unauthorized modification.

MAINTENANCE
The product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing, or parts, and that in the event such damage is found, the product should not be used until properly repaired. Never leave the fan outside in the rain or elements when not in use. Refer to the instructions for set-up, storage, maintenance and care.

To clean use mild detergent and water. Minor repairs can be made using the enclosed repair patches.

Compress air out as you are rolling up inflatable.
Deflation & Storage

1. Turn off the blower and unplug it from the outlet.

2. Switch power off

3. Untie drawstring from the Intake Tube and allow the Ballpit Bouncer to fully deflate.

MINIMUM CLEARANCE ZONES

Make sure that there is a 6.6-feet (2m) obstacle-free zone around the product, including the slide and overhead.

INFLATABLE SIZE:
7.0W x 11.9D x 6H feet (2.1 x 3.6 x 1.8 m)

Set-up
Set-up

5

CAUTION: Heed all signs and warning labels on the blower motor.

BLOWER CAUTIONS:
- Do not open or try to service the blower. If blower needs servicing, take it to a reputable dealer.
- Clearly mark the path of the power cord to avoid tripping and/or damage by yard equipment such as lawn mowers, etc.
- Do not leave blower unattended.
- Do not allow blower to be used or played with by children.
- Do not cover the air intakes when the blower is being used and do not insert small objects into any part of the blower.
- WARNING - Electrical Hazard - DO NOT USE EXTENSION CORDS WITH THIS PRODUCT.
- Disconnect the blower from the power source when moving the slide.
- WARNING - To reduce the risk of fire or electric shock, do not use this blower with any solid-state speed control device.
- The blower should be securely staked to the ground before use.

6

Attach fabric tube to blower unit making sure the tube is not twisted.

7

Wrap drawstring around the tube and end of blower once, and tie tightly in place.

8

Test the blower AC Adapter:
1. Plug GFCI into receptacle.
2. Press reset button.
3. Press test button.
4. Press reset button to use product
Do not use if the button fails to disable fan.

WARNING: If the blower remains ON when the “test” button is pushed, the unit is NOT working properly. DO NOT USE THE UNIT. Take the unit to a certified electrician immediately.

9

Re-measure clearance zone prior to inflation.

Inflation & Staking

1

Switch power ON. If blower does not operate when switched on, press the reset button on the GFCI adaptor.

2

Blower should remain on and continuously inflate bouncer during use. Airflow through seams is normal. Do not try to seal or repair seams. NOTE: Dispose of tissue paper packed inside bouncer after inflation.

3

Secure the blower to the ground with the stakes provided.
