**Limited Warranty**

The Little Tikes Company makes fun, high quality toys. We warrant to the original purchaser that this product is free of defects in materials or workmanship for one year* from the date of purchase (dated sales receipt is required for proof of purchase). At the sole election of The Little Tikes Company, the only remedies available under this warranty will be either replacement of the defective part or replacement of the product. This warranty is valid only if the product has been assembled and maintained per the instructions. This warranty does not cover abuse, accident, cosmetic issues such as fading or scratches from normal wear, or any other cause not arising from defects in material and workmanship.

**Wet and Dry Inflatable Bouncers Warranty:** We warrant to the original purchaser that the fabric in this product is free of defects in materials or workmanship for 90 days from the date of purchase, and the blower is free of defects in material or workmanship for one year from the date of purchase (dated sales receipt is required for proof of purchase).

**U.S.A and Canada:** For warranty service or replacement part information, please visit our website at www.littletikes.com, call 1-800-321-0183 or write to: Consumer Service, The Little Tikes Company, 2180 Barlow Road, Hudson OH 44236, U.S.A. Some replacement parts may be available for purchase after warranty expires—contact us for details.

**Outside U.S.A and Canada:** Contact place of purchase for warranty service.

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. *The warranty period is three months for daycare or commercial purchasers.

---

**Made in the Shade Waterpark™**

Instructions for Installation and Operation

Ages: 5-10 years

---

**CAUTION - ELECTRICALLY OPERATED PRODUCT.**

OPERATION OF BLOWER FAN UNIT NOT RECOMMENDED FOR CHILDREN UNDER 8 YEARS OF AGE. AS WITH ALL ELECTRONIC PRODUCTS, PRECAUTIONS SHOULD BE OBSERVED DURING HANDLING AND USE TO PREVENT ELECTRIC SHOCK.

**WARNING:** FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH.

Do not use extension cords with this product. Outdoor use only.

---

**WARNING**

ELECTROCUTION RISK:
- KEEP ALL ELECTRICAL LINES, RADIOS, SPEAKERS AND OTHER ELECTRICAL DEVICES AWAY FROM THE CONSTANT AIR INFLATABLE.
- DO NOT PLACE THE CONSTANT AIR INFLATABLE NEAR OR UNDER OVERHEAD ELECTRICAL LINES.

---

Visit our website at www.littletikes.com to register your product and to enter our sweepstakes. (No purchase necessary)
ATTENTION: Please DO NOT return to the store.
If you encounter problems, or have questions, please call our
qualified customer service technicians at 1-800-321-0183.

Contents
A 1 inflatable waterpark
B 8 waterpark stakes
C 1 storage bag
D 1 blower with GFCI plug
E 2 blower stakes
F 1 hose assembly kit
G 4 repair patches

A WARNING
Prevent Drowning

Children, especially toddlers, are at high risk of drowning. Closely watch children who are in or near this inflatable device. Empty inflatable device or prevent access when not in use.

Drowning Risk:
• Keep unsupervised children from accessing the pool by installing fencing or other approved barrier around all sides of the waterpark.
• State or local laws or codes may require fencing or other approved barriers. Check state or local laws and codes before setting up the waterpark.
• Drowning occurs silently and quickly. Assign an adult to supervise the waterpark.
• Keep children in your direct sight when they are in or near the waterpark and when you are filling and emptying the waterpark.
• When searching for a missing child, check the pool first, even if you think your child is in the house.

First Aid:
• Keep a working phone and list of emergency numbers near the waterpark.
• Become certified in cardiopulmonary resuscitation (CPR) so you can respond to an emergency.

Storage

1. Fold all pieces of the waterpark (i.e., Slide, Air Inlet Tube, etc.) toward the center.
   NOTE: If bottom surface is still moist, allow it to air dry prior to folding.

2. Roll up the waterpark tightly and compress the fabric to expel all of the remaining air.

3. Storage

   - Fold all pieces of the waterpark (i.e., Slide, Air Inlet Tube, etc.) toward the center.
   - Roll up the waterpark tightly and compress the fabric to expel all of the remaining air.

   NOTE: Do not place the Water Spray Tubing inside the waterpark when rolling it up.

Repair Patch Instructions

1. WARNING: Repair patches must be applied by an adult only. KEEP OUT OF REACH OF CHILDREN.

   Repair Patch Instruction
   1. De/inflate the item, clean the area and allow to dry thoroughly.
   2. Cut a portion of the patch to the size needed and round the corners. (See Fig. 1 & 2).
   3. Remove the adhesive backing from the patch material, position the patch over the damaged area and smooth out any bubbles.
   4. Allow to sit for 30 minutes before re-inflating.

Instructions for Bouncer Maintenance

• As an outdoor product, the bouncer is subject to wear and deterioration. Inspect for signs of fabric failure; weak or torn surfaces must be repaired promptly.
• To keep the product clean: wipe the bouncer or blower using a dry cloth or a cloth dampened with a neutral, non-flammable, non-toxic cleaning and sanitizing solution or pure water.
• Product should never be stored wet. Allow to dry before rolling up.

Instructions for Blower Maintenance

• Blower must be unplugged before servicing.
• Product should be periodically examined for potentially unsafe conditions such as damaged cord, plug, housing, or parts, and that in the even such damage is found, the product should not be used until properly repaired. If these checks are not carried out, the product could overheat or otherwise become a hazard.
• The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower.
• Do not immerse the fan in water. To clean, wipe with a damp cloth.
• Regularly check the inlet and outlet openings and keep free of dirt, leaves, etc.
• When not in use, store the blower indoors in a dry place.
• Store the blower upright on a stable surface.
• Loosely coil the cord and place it beside the blower.
• Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
• Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
• Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.

Disposal

• Disassemble and dispose of the equipment in such a manner that no hazardous conditions exist at the time the equipment is discarded.
• Blower should be returned to a collection center capable of processing electrical/electronic waste.
## Draining & Deflation

**IMPORTANT** - Inflatable waterpark MUST be drained of all water and be COMPLETELY DRY before storage in order to avoid mold and mildew. DO NOT fold and store waterpark if any moisture remains.

**IMPORTANT** - All children MUST EXIT the waterpark before deflation or draining water.

**IMPORTANT** - DO NOT fold and store waterpark if any moisture remains.

**IMPORTANT** - Inflatable waterpark MUST be drained of all water and be COMPLETELY DRY before storage in order to avoid mold and mildew.

1. Turn off the blower motor and unplug it from the outlet. Move the blower to dry ground if it appears that it will get wet from draining water.

2. Turn off the garden hose and disconnect it from the Clear Plastic Tubing.

3. Lift the bottom of pool from one side to the other to let the remaining water drain.

4. Remove stakes and drag the waterpark away from the drained water to a dry area.

5. Re-stake the bouncer and blower, tie the inflation tube to the blower, then reconnect and power up the blower.

6. Leave the waterpark inflated until all remaining water has evaporated and the waterpark is dry. This may take 2 hours or more depending on weather conditions.

7. Once bouncer is completely dry, untie the drawstring from the short Outlet Tube and allow the waterpark to fully deflate. Remove the Hose Assembly and wrap it up with no kinks.

8. Remove and drain the Hose Assembly from the waterpark.

---

## Safety Warnings: ELECTRICAL BLOWER

**DANGER** CAUTION: ELECTRICALLY OPERATED PRODUCT

**DANGER** - TO PREVENT ELECTRIC SHOCK, DO NOT IMMERSE IN WATER. WIPE CLEAN WITH DAMP CLOTH.

**WARNING**: FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH. ADULT SET-UP AND SUPERVISION REQUIRED.

**CAUTION**: The blower is a high volume blower, and is capable of moving lots of air very quickly. Place the blower in an area where it will not suck in dirt or leaves. Keep away from water and traffic. Keep children away from the blower. Only the blower supplied should be used for inflation.

**WARNING**: Failure to follow these instructions could result in serious injury or death.

- **NOTE**: Set up as close to power source as possible. The product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing or parts, and that in the event such damage is found, the product should not be used until properly repaired. Never leave the blower outside in the rain or exposed to the elements when not in use. When in use, do not place the cord across traffic areas, water or damp areas. The blower should be placed on a stable surface and anchored per product instructions. The power cord of the blower is equipped with a Ground Fault Circuit Interrupter (GFCI) plug.

1. **1) Make sure that the blower switch is in the “OFF” position. Plug the blower into a properly grounded 110-120V GFCI outlet.**

2. **2) If the GFCI has been tripped, press the “RESET” button to restore power to the blower.**

3. **3) Set the power switch of the blower to “ON” to inflate. After use, turn the power to “OFF.”**

4. **4) To disconnect, have an adult grip it tightly and pull the plug from wall outlet.**

**INSTRUCTIONS FOR BLOWER INSTALLATION**

**NOTE**: Set up as close to power source as possible. The product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing or parts, and that in the event such damage is found, the product should not be used until properly repaired. Never leave the blower outside in the rain or exposed to the elements when not in use. When in use, do not place the cord across traffic areas, water or damp areas. The blower should be placed on a stable surface and anchored per product instructions. The power cord of the blower is equipped with a Ground Fault Circuit Interrupter (GFCI) plug.

**INSTRUCTIONS FOR BLOWER CLEANING AND STORAGE**

Do not immerse the blower in water. Unplug the blower before cleaning. To clean: wipe with a damp cloth. The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower. When not in use, store the blower indoors in a dry place. Store the blower upright on a stable surface. Loosely coil the cord and place it beside the blower.

---

**GROUNDING METHODS**

**Sketch A**

- **Grounding pin**

**Sketch B**

- **Grounding pin**

**Note**: This blower is for residential use only. It is not intended to be used in commercial or industrial settings.

**Use only on GFCI protected receptacles**

**Grounding instructions for all grounded, cord-connected products**

This product should be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current. This product is equipped with a cord having a grounding wire with an appropriate grounding plug. This plug must be plugged into an outlet that is properly installed and grounded in accordance with all local codes and ordinances. **DANGER** - Improper installation of the grounding plug can result in a risk of electric shock. If repair or replacement of the cord or plug is necessary, do not connect the grounding wire to either flake terminal. The wire with insulation having an outer surface that is green, with or without yellow stripes, is the grounding wire. Check with a qualified electrician or service person if the grounding instructions are not completely understood, or if in doubt as to whether the product is properly grounded. Do not modify the plug provided; if it will not fit the outlet, have the proper outlet installed by a qualified electrician. For a grounded, cord-connected product, rated less than 15 amperes and intended for use on a nominal 110-120 volt supply circuit, these instructions should be followed. This product is for use on a nominal 110-120 volt supply circuit, and has a grounding plug that looks like the plug illustrated in sketch A. A temporary adaptor should not be used. Do not use product until a properly grounded outlet (sketch A) can be installed by a qualified electrician.

**WARNING** Electrocution Hazard - Do not use extension cords with this product.
**Safety Warnings: SET UP**

- Minimum clearance zones: Place at least 6.6 ft. (2m) away from any other objects.
- Obstacles to be avoided include but are not limited to fences, buildings, trees, overhead branches, laundry lines, electrical wires, walls, or bodies of water.
- Make sure the area around the product is secure by adding extra safety barriers, if possible. A good practice is to have children playing in a closed space such as a yard or enclosed area.
- Make sure the area around the product is secure by adding extra safety barriers, if possible. A good practice is to have children playing in an enclosed area.
- Do not use extension cords with this product. Set up as close to power source as possible. The blower should be securely anchored to the ground before use.
- CAUTION: the blower is capable of moving large volumes of air very quickly. Place the blower in an area where it will not draw in dirt or leaves. Keep the blower and power cord away from children, water, and traffic.
- ATTENTION: Blower should remain on and continuously inflate the product during use. Airflow through seams is normal.
- DO NOT slide down on your stomach or head first.
- Do not consume food, drink and gum on this product.
- Do not bounce on the padding area under shade. It is intended for lounging.

**Safety Warnings: FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH.**

- Always check product and all its anchorage points during use, and re-secure, as appropriate. Always check for excessive air loss, and re-inflate before allowing play to continue.
- As an outdoor product, this inflatable is subject to wear and deterioration. Keep the product properly maintained and watch for signs of fabric failure. Weak or torn surfaces must be repaired promptly.
- If product contains a pool:
  - Never dive or jump into the pool area.
  - Do not sit on the edges of the pool as flooding may occur.
  - Always drain the pool after use. Do not leave it inflated or full of water overnight.
  - Keep the pool area clean to prevent illness. Instruct all children never to drink pool water and to practice good hygiene.
  - Thoroughly dry the inflatable surface before and during use. Check the blower is properly connected.
  - Always check the product and all its anchorage points before and during use, and to re-secure as appropriate.
  - If applicable, remove water and debris from pocket steps after each play cycle.
  - Prevent Drowning

**NOTICE**

- ADA compliant
- Constant, competent adult supervision of children and other young users is required at all times.
- Keep the area around the product clean, and clear of objects, to prevent slips and falls.
- Instruct children on proper use of this product. Do not use in a manner other than intended.
- Helmets, headgear, shoes, glasses, loose clothing, scarves, hoods, or clothing containing drawstrings should not be worn when using this product.
- Do not allow other toys or objects inside the product.
- Instruct children not to attach items to the product that are not specifically designed for use with the equipment, such as not to limit to jump, pogo, clothesline, pet leashes, and chains as they may cause a strangulation hazard.
- Keep pets away from the product.
- Bounce away from others and stay away from sidewalks, especially the opening.
- Do not jump onto or off of product.
- Do not allow children to play together who are unevenly matched in weight and height.
- The maximum fall height of the inflatable device is 48 inches (122 cm).
- Inspect the equipment before use.
- Thoroughly dry before use.
- Never use the equipment in the rain or other inclement weather. Always drain the pool after use. Do not leave it inflated or full of water overnight.
- Always check product and all its anchorage points during use, and re-secure, as appropriate. Always check for excessive air loss, and re-inflate before allowing play to continue.
- As an outdoor product, this inflatable is subject to wear and deterioration. Keep the product properly maintained and watch for signs of fabric failure. Weak or torn surfaces must be repaired promptly.
- CAUTION: the blower is capable of moving large volumes of air very quickly. Place the blower in an area where it will not draw in dirt or leaves. Keep the blower and power cord away from children, water, and traffic.
- ATTENTION: Blower should remain on and continuously inflate the product during use. Airflow through seams is normal.
- Do not consume food, drink and gum on this product.
- Do not bounce on the padding area under shade. It is intended for lounging.

**WARNING**

- Children can drown in a very small amount of water. Empty the pool when not in use.
- To avoid the risk of injury, ALWAYS slide down the slide with feet first. NEVER slide down on your stomach or head first.
- Only one child should be on the slide and climber at one time.
- Total weight of children must not exceed 350 lbs. (max. individual weight = 110 lbs.) on inflated surface. NEVER slide down the slide until the splashdown area is clear.
- NEVER slide or jump down the climbing wall.

**Playing in the Waterpark**

**NOTE:** It is normal to see air bubbles rising from the pool floor and other wet areas of the waterpark.

**SLIDING**

1. Climb up the climbing wall to the top of the slide.
2. Sit on the top with your feet pointing down the slide.
3. Scare forward and slide down into the splashdown area.
4. DO NOT slide down on your stomach or head first.
5. Do not face the sun when sliding.

**Water Warnings on the Waterpark**

**IMPORTANT!**

To avoid serious injury or death, heed all warning signs that are printed on the Waterpark. These signs are shown below:

**WARNING**

- NEVER JUMP OR DIVE FROM ANY PART OF THE WATERPARK!
- DO NOT GO DOWN THE CHUTE BACKWARDS.
- NO DIVING, JUMPING OR HORSEPLAY IN OR AROUND POOL.
- NO GLASS IN POOL AREA.

**WARNING**

- BE CAREFUL! SOME OF THE WATERPARK SURFACES ARE SLIPPERY AND MAY PRESEN A TRIPPING HAZARD.

**WARNING**

DO NOT USE OUTDOOR FOOTWEAR ON ANY PART OF THE WATERPARK. AS IT MAY BECOME DAMAGED.

**CAUTIONS:**

- Keep the pool area clean to prevent illness. Instruct all children never to drink pool water and to practice good hygiene.
- Prevent Drowning

Children—especially toddlers—are at high risk of drowning. Closely watch children who are in or near this inflatable device. Empty inflatable device or prevent access when not in use.
Staking the Waterpark

CAUTIONS: The waterpark and all its anchorage points should be checked before and during use. Reinflate or re-secure as appropriate. DO NOT let children play on the waterpark until it is fully inflated!

1. Secure the waterpark to the ground with the provided stakes. To prevent tripping, pull the stake loops all the way out, then drive stakes completely into the ground.

2. Secure the Blower to the ground with the provided stakes.

WATERPARK CAUTIONS:
- Drive ground stakes completely into the ground to avoid tripping hazard.
- Do not use the water slide until an adult has assembled, staked down, and fully inflated.
- Do not set up or inflate the waterpark in windy and/or rainy conditions as wind gusts may cause the park to become unstable and possibly be lifted from the ground.

Waterpark Placement

Designate a flat, level surface that allows for 6.6 feet (2m) of minimum clearance around the waterpark.

NOTE: DO NOT place the waterpark on a hard surface like asphalt, concrete or packed earth as both serious bodily injury and damage to the waterpark could result.

ASSEMBLY AREAS
- Make sure the assembly area is flat and level and is free of rocks, sharp objects or other obstructions.
- Do not set up the waterpark on a slope or inline.

CAUTIONS:
- Do not set up the waterpark on hard-packed earth, asphalt, decking or any hard surface as doing so may result in physical injury and/or damage to the waterpark.
- Once the waterpark is inflated or filled with water, do not attempt to drag it to another location.
- Check your local county or city regulations for requirements on securing the pool.
- Secure the pool from unauthorized use.

Minimum Clearance Zones

MINIMUM CLEARANCE ZONES
Make sure that there is a 6.6 ft. (2m) obstacle-free zone around the product, including the slide and overhead.

INFLATABLE SIZE: 10.5 W x 8.67 D x 6.83 H feet (3.2 x 2.64 x 2.08 m)

CAUTIONS:
- Do not place the waterpark on a hard surface like asphalt, concrete or packed earth as both serious bodily injury and damage to the waterpark could result.

Unfolding the Waterpark

1. Turn on the garden hose and adjust the pressure as desired. Make sure that a steady spray of water comes out of the sprayer and keep the slides wet.

2. Remove contents from the carrying bag.

3. Unroll and unfold the waterpark in the center of the designated area.

STAKING THE WATERPARK

- Make sure that the assembly area is flat and level and is free of rocks, sharp objects or other obstructions.
- Do not set up the waterpark on a slope or inline.

CAUTIONS:
- Check your local county or city regulations for requirements on securing the pool.
- Secure the pool from unauthorized use.
Blower Set Up

1. Attach long Air Intake Tube on the waterpark to the mouth of the Blower Motor with the attached drawstring, make sure the Intake Tube is free of twists or kinks.

2. Wrap drawstring around the tube and end of blower once, and tie tightly in place.

3. Tie off the short Air Outlet Tube tightly to make a good seal.

4. Re-measure minimum clearance zone prior to inflation.

NOTE: Position the blower motor perpendicular and level to the waterpark. Make sure that the blower is upright on a stable surface. Do not place the blower in an area where it can draw up dirt, leaves and other debris. Make sure that the blower is at least 6.6 ft. (2m) away from any structure or obstacle such as a fence, garage, overhanging branches or electrical wires.

BLOWER MAINTENANCE
- Blower must be unplugged before servicing.
- Product should be periodically examined for potentially unsafe conditions such as damaged cord, plug, housing, or parts, and that in the even such damage is found, the product should not be used until properly repaired.
- The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower.
- Do not immerse the blower in water. To clean, wipe with a damp cloth.
- Regularly inspect the intake and output openings and keep free of dirt, leaves, etc.
- When not in use, store the blower indoors in a dry place.
- Store the blower upright on a stable surface.
- Loosely coil the cord and place it beside the blower.
- When in use, do not place the cord across traffic areas, water or damp areas.
- The blower is a high volume blower, capable of moving large volumes of air very quickly. Place the blower in an area where it will not draw in dirt or leaves.

Inflating the Waterpark

5. Test the Blower AC Adapter:
   1. Plug GFCI into receptacle.
   2. Press reset button.
   3. Press test button.
   4. Press reset button to use product.

   If the blower remains ON when the “test” button is pushed, the unit is NOT working properly. DO NOT USE THE UNIT. Take the unit to a certified electrician immediately.

6. Switch power ON. If blower does not operate when switched on, press the reset button on the GFCI adaptor.

7. Waterpark will inflate in minutes. Blower should remain ON to continuously inflate the waterpark during use. Air flow through seams is normal (do not try repair or seal seams).

Waterpark Spray Assembly, Part 1

1. Connect the SINGLE - outlet Sprayer to the top as shown. Make sure the Hose Assembly is attached to the waterpark as shown. Connect the tubing to the hook and loop closures down the side of the inflatable.

2. Attach the garden hose to the end of the Tubing Assembly.

HINT: For ease of assembly, attach hose assembly to upper arch as waterpark is inflating.
