Obstacle Course Waterpark™

Instructions for Installation and Operation

Ages: 5-10 years

CAUTION • ELECTRICALLY OPERATED PRODUCT.
OPERATION OF BLOWER FAN UNIT NOT RECOMMENDED FOR CHILDREN UNDER 8 YEARS OF AGE. AS WITH ALL ELECTRONIC PRODUCTS, PRECAUTIONS SHOULD BE OBSERVED DURING HANDLING AND USE TO PREVENT ELECTRIC SHOCK.

WARNING: FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH.

Do not use extension cords with this product. Outdoor use only.

Read all instructions before assembling this inflatable device. Keep instructions for future use.

WARNING

ELECTROCUTION RISK:
- KEEP ALL ELECTRICAL LINES, RADIOS, SPEAKERS AND OTHER ELECTRICAL DEVICES AWAY FROM THE CONSTANT AIR INFLATABLE.
- DO NOT PLACE THE CONSTANT AIR INFLATABLE NEAR OR UNDER OVERHEAD ELECTRICAL LINES.

Please save sales receipt for proof of purchase

Limited Warranty

The Little Tikes Company makes fun, high quality toys. We warrant to the original purchaser that this product is free of defects in materials or workmanship for one year* from the date of purchase (dated sales receipt is required for proof of purchase). At the sole election of The Little Tikes Company, the only remedies available under this warranty will be either replacement of the defective part or replacement of the product. This warranty is valid only if the product has been assembled and maintained per the instructions. This warranty does not cover abuse, accident, cosmetic issues such as fading or scratches from normal wear, or any other cause not arising from defects in material and workmanship.

Wet and Dry Inflatable Bouncers Warranty: We warrant to the original purchaser that the fabric in this product is free of defects in materials or workmanship for 90 days from the date of purchase, and the blower is free of defects in material or workmanship for one year from the date of purchase (dated sales receipt is required for proof of purchase).

U.S.A and Canada: For warranty service or replacement part information, please visit our website at www.littletikes.com, call 1-800-321-0183 or write to: Consumer Service, The Little Tikes Company, 2180 Barlow Road, Hudson OH 44236, U.S.A. Some replacement parts may be available for purchase after warranty expires—contact us for details.

Outside U.S.A and Canada: Contact place of purchase for warranty service.

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. *The warranty period is three months for daycare or commercial purchasers.

Contents

A 1 inflatable waterpark
B 9 waterpark stakes
C 1 storage bag
D 1 blower with GFCI plug
E 2 blower stakes
F 1 hose assembly kit
G 4 repair patches

⚠️ WARNING

Prevent Drowning

Children, especially toddlers, are at high risk of drowning. Closely watch children who are in or near this Inflatable device. Empty inflatable device or prevent access when not in use.

Drowning Risk:
- Keep unsupervised children from accessing the pool by installing fencing or other approved barrier around all sides of the waterpark.
- State or local laws or codes may require fencing or other approved barriers. Check state or local laws and codes before setting up the waterpark.
- Drowning occurs silently and quickly. Assign an adult to supervise the waterpark.
- Keep children in your direct sight when they are in or near the waterpark and when you are filling and emptying the waterpark.
- When searching for a missing child, check the pool first, even if you think your child is in the house.

First Aid:
- Keep a working phone and list of emergency numbers near the waterpark.
- Become certified in cardiopulmonary resuscitation (CPR) so you can respond to an emergency.
Storage

1. Field all pieces of the workaround (i.e. Slide, Air Inlet Tube, etc.) toward the center.
   NOTE: If bottom surface is still moist, allow it to air dry prior to folding.

2. Roll up the workaround tightly and compress the fabric to expel all of the remaining air.
   NOTE: Do not place the water spray fabric inside the workaround when rolling it up.

Warning: Not a toy. Adult use only. Repair Patch. Keep away from children.

Repair Patch Instructions

1. Deflate the item, clean the area and allow to dry thoroughly.

2. Cut a portion of the patch to the size needed and round the corners. (See Fig. 1 & 2).

3. Remove the adhesive backing from the patch material, position the patch over the damaged area and smooth out any bubbles.

4. Allow to sit for 30 minutes before re-inflating.

Instructions for Bouncer Maintenance

- As an outdoor product, the bouncer is subject to wear and deterioration. Inspect for signs of fabric failure; weak or torn surfaces must be repaired promptly.
- To keep the product clean: wipe the bouncer or blower using a dry cloth or a cloth dampened with a neutral, non-flammable, non-toxic cleaning solution or pure water.
- Product should never be stored wet. Allow to dry before rolling up.
- The blower is a high volume blower and is capable of moving large volumes of air.
- When not in use, store the blower indoors in a dry place.
- Regularly check the intake and output openings and keep free of dirt, leaves, etc.
- Do not operate the blower with a damaged cord or plug after the appliance malfunctions or has been dropped or damaged in any manner.
- Never use the blower with any solid state speed control device.
- Never connect the blower to any solid state speed control device.
- Do not operate in the presence of explosive and/or flammable fumes.
- Do not operate the blower with a damaged cord or plug, after the appliance malfunctions or has been dropped or damaged in any manner.
- The blower does not require any lubrication and has no user serviceable parts.
- Do not attempt to service the blower. When not in use, store the blower indoors in a dry place.
- Charge the water of the pool frequently (particularly in hot weather) or when noticeably contaminated.
- This blower is not a toy. Use under the direct supervision of a competent adult. Keep away from children. This instruction booklet contains important safety information. Please read and keep for future reference.

Instructions for Blower Cleaning and Storage

- Do not immerse the blower in water. Unplug the blower before cleaning. To clean: wipe with a damp cloth. The blower does not require any lubrication and has no user serviceable parts.
- Do not attempt to service the blower. When not in use, store the blower indoors in a dry place.
- Store the blower upright on a stable surface. Loosely coil the cord and place it beside the blower.

Disposal

- Disassemble and dispose of the equipment in such a manner that no hazardous conditions exist at the time the equipment is discarded.
- Blower should be returned to a collection center capable of processing electrical/electronic waste.
- Blower must be unplugged before servicing.
- Product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing, or parts, and that in the event such damage is found, the product should not be used until properly repaired.
- Never leave the blower outside in the rain or exposed to the elements when not in use. When in use, do not place the cord across traffic areas, water or damp areas.
- The blower should be placed on a stable surface and anchored per product instructions. The power cord of the blower is equipped with a Ground Fault Circuit Interrupter (GFCI) plug.

Safety Warnings: ELECTRICAL BLOWER

DANGER - To prevent electric shock, do not immerse in water. Wipe clean with damp cloth.

WARNING: Failure to follow these instructions could result in serious injury or death. Adult set-up and supervision required.

INSTRUCTIONS FOR BLOWER INSTALLATION

1. Make sure that the blower switch is in the “OFF” position. Plug the blower into a properly grounded 110-120V GFCI outlet.
2. If the GFCI has been tripped, press the “RESET” button to restore power to the blower.
3. Set the power switch of the blower to “ON” to inflate. After use, turn the power to “OFF.”
4. To disconnect, have an adult grip it tightly and pull the plug from wall outlet.

INSTRUCTIONS FOR BLOWER CLEANING AND STORAGE

This blower is not a toy. Use under the direct supervision of a competent adult. Keep away from children. This instruction booklet contains important safety information. Please read and keep for future reference.

INSTRUCTIONS FOR BLOWER CLEANING AND STORAGE

This blower is not a toy. Use under the direct supervision of a competent adult. Keep away from children. This instruction booklet contains important safety information. Please read and keep for future reference.
ADULT SUPERVISION AND SET UP REQUIRED. This product should be inflated or deflated only by a competent adult. Follow all instructions provided.

WARNING! Falls onto hard surfaces can result in head or other serious injuries. Never place on concrete, asphalt, wood, packed earth, grass or other hard surfaces.

- WARNING/Only for domestic use. Intended for outdoor domestic use only. Not for use in public areas or as a rental.
- Product is heavy. Use caution when lifting.
- Product should never be dragged across concrete, pavement or other rough surfaces.
- WARNING/Keeep away from fire. Keep fabric, clear of all flame and ignition sources.
- Do not set up in windy or rainy conditions: sudden gusts of winds may lift the product off the ground.
- Product can be installed in any orientation in relation to the sun, since there are no metal components or surfaces that can be absorb excessive solar radiation.
- Set-up in outdoor location only that meets the following criteria:
  - Place on level ground and firm grass or soil to allow proper use of stakes.
  - Stakes should be placed at an angle for better anchorage, should be driven down under the ground to prevent tripping.

Safety Warnings: SET UP

- Minimum clearance zones: Place at least 6.6 ft. (2m) away from any other objects.
- Objects to be avoided include but are not limited to fences, buildings, trees, overhead branches, laundry lines, electrical wires, walls, or bodies or sources of water.
- Make sure the area around the product is secure by adding safety barriers, if necessary, to keep young children and pets from gaining access.
- Electrical cord must not be passed under the air filled devices (inflatable waterpark) and interfere with its operation.
- The waterpark uses a main powered blower (air pump) to maintain pressure, only to be used by an adult.
- Only the blower supplier should be used for inflation.
- Do not use extension cords with this product. Set up as close to power source as possible. The blower should be securely anchored to the ground before use.
- CAUTION: the blower is capable of moving large volumes of air very quickly.
- Place the blower in an area where it will not draw in dirt or leaves.
- Keep blower and power cord away from children, water and traffic.
- ATTENTION: Blower should remain on and continuously inflate waterpark during use. Airflow through seams is normal.
- Do not use the product if wind speed exceeds 30mph.
- Do not consume food, drink and gum on this product.
- Do not bounce on the tarpaulin; it is intended for kneeling.

Safety Warnings: FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH.

- Constant, competent adult supervision of children and other young users is required at all times.
- Keep the area around the product clean, and clear of objects, to prevent slips and falls.
- Instruct children on proper use of this product. Do not use in a manner other than surfaces.
- Helmets, headgear, shoes, glasses, loose clothing, hoods, or clothing containing drawstrings should not be worn when using this product.
- Do not allow other toys or objects inside the product.
- Instruct children not to attach items to the product that are not specifically designed for use with the equipment, such as but not limited to, jump ropes, clothesline, pet leashes, cables and chains as they may cause a strangulation hazard.
- Keep pets away from product.
- Bounce away from others and stay away from sidewalks, especially the opening.
- Do not jump onto or off of product.
- Do not allow children to play together who are unevenly matched in weight and height.
- The maximum full height of the inflatable device is 56 inches (142cm).
- Thoroughly dry before use.
- Total weight of children must not exceed 150 Lbs. (68 kg) on side and pool.
- Only one child at a time should ride on each side and divider.
- Children must not slide down head first or on their stomach.
- Do not let children walk on the side where blower motor is attached.
- Always dry product before storing.
- Never use product as a flotation or life saving device.

- Always check product and all its anchorage points during use, and re-secure, as appropriate. Always check for excessive air loss, and re-inflate before allowing play to continue.
- As an outdoor product, this inflatable is subject to wear and deterioration. Keep product properly maintained and watch for signs of fabric failure. Weak or torn surfaces must be repaired promptly.
- If product contains a pool:
  - Never dive or jump into the pool area.
  - Do not sit on the edges of the pool as flooding may occur.
  - Keep pool area clean to prevent illness. Instruct all children never to drink pool water and to practice good hygiene.
- Before and during use, check for air loss. Check blower is properly connected.
- Always check the product and all its anchorage points before and during use, and to re-secure, as appropriate.
- If applicable, remove water and debris from pocket steps after each play cycle.
- After inflation, the blower should run continuously while children are playing.
- To be used on soft ground only, the impact absorbing material (e.g. rubber mulch, engineered wood fiber (EWF) etc.) shall be at least 1.8 m (6 ft) from the opening in all directions away from the inflatable device.
- Prior to deflating, remove all children.
- Always deflated product after use, and store indoors.
- The product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing, or parts, and that in the event such damage is found, the product should not be used until properly repaired. Never leave the fan outside in the rain or elements when not in use. Refer to the instructions for set-up, storage, maintenance and care.

WARNING: NOT A TOY. ADULT USE ONLY. Repair Patch. Keep away from children.

- Always deflate the item, clean the area and allow to dry thoroughly.
- Cut a portion of the patch to the size needed and round the corners. (See Fig. 1 & 2).
- Remove the adhesive backing from the patch material, position the patch over the damaged area and smooth out any bubbles.
- Allow to sit for 30 minutes before re-inflating.

Instructions for Bouncer Maintenance

- As an outdoor product, the bouncer is subject to wear and deterioration. Inspect for signs of fabric failure; weak or torn surfaces must be repaired promptly.
- To keep the product clean: wipe the bouncer or blower using a dry cloth or a cloth dampened with a neutral, non-flammable, non-toxic cleaning and sanitizing solution or pure water.
- Product should never be stored wet. Allow to dry before rolling up.
- Disassemble and dispose of the equipment in such a manner that no hazardous conditions exist at the time the equipment is discarded.
- Blower should be returned to a collection center capable of processing electrical/electronic waste.

Storage

1. Fold all pieces of the waterpark (e. Slide, Air line Tube, etc.) toward the center. NOTE: If bottom surface is still moist, allow it to air dry prior to folding.
2. Roll up the waterpark tightly and compress the fabric to expel all of the remaining air.

Disposal

1. Disassemble and disposal of the equipment in such a manner that no hazardous conditions exist at the time the equipment is discarded.
2. Blower should be returned to a collection center capable of processing electrical/electronic waste.

Blower Maintenance

- Blow must be unplugged before servicing.
- Product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing, or parts, and that in the event such damage is found, the product should not be used until properly repaired. If these checks are not carried out, the product could overheat or otherwise become a hazard.
- The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower.
- Do not immerse the fan in water. To clean, wipe with a damp cloth.
- Regularly check the intake and output openings and keep free of dirt, leaves, etc.
- When not in use, store the blower indoors in a dry place.
- Store the blower upright on a stable surface.
- Locally coil the cord and place it beside the blower.
- When in use, do not place the cord across traffic areas, water or damp areas.
- The blower is a high volume blower and is capable of moving large volumes of air very quickly. Place the blower in an area where it will not draw in dirt or leaves.
- Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
- Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.

Instructons for Repair Patch Maintenance

- Repair patches must be applied by an adult only. KEEP OUT OF REACH OF CHILDREN.

1. Apply repair patch to the cloth, on the side of the hole or tear, not in ruins.
2. Do not apply to fabrics that are wet.
3. Do not apply to fabrics that are damaged.
4. Repair patch should be properly attached to the fabric and should be kept away from children.
**Deflation**

7. Remove stakes and drag the waterpark away from the drained water to a dry area.

8. Re-stake the bouncer and blower, tie the inflation tube to the blower, then reconnect and power up the blower.

9. Leave the waterpark inflated until all remaining water has evaporated and the waterpark is dry. This may take 2 hours or more depending on weather conditions.

10. Once bouncer is completely dry, turn off the blower and motor and unplug it from the outlet.

11. Remove and drain the hose assembly from the waterpark except for the archway.

12. Untie the drawstring from the short Outlet Tube and allow the waterpark to fully deflate. Remove the Hose Assembly and wrap it up with no kinks.

**Waterpark Placement**

Designate a flat, level surface that allows for 6.6 feet (2m) of minimum clearance around the waterpark.

**NOTE:** DO NOT place the waterpark on a hard surface like asphalt, concrete or packed earth as both serious bodily injury and damage to the waterpark could result.

**ASSEMBLY AREAS**

- Make sure the assembly area is flat and level and is free of rocks, sharp objects or other obstructions.
- Do not set up the waterpark on a slope or inline.
- Do not set up the waterpark on hard-packed earth, asphalt, decking or any hard surface as doing so may result in physical injury and/or damage to the waterpark.
- Once the waterpark is inflated or filled with water, do not attempt to drag it to another location.
- Check your local county or city regulations for requirements on securing the pool.
- Secure the pool from unauthorized use.

**Minimum Clearance Zones**

MINIMUM CLEARANCE ZONES

Make sure that there is a 6.6 ft. (2m) obstacle-free zone around the product, including the slide and overhead.

INFLATABLE SIZE: 12 W x 14 D x 7.92 H feet (3.66 x 4.27 x 2.41 m)

**Unfolding the Waterpark**

1. Remove contents from the carrying bag.

2. Unroll and unfold the waterpark in the center of the designated area.

3. Leave the waterpark inflated until all remaining water has evaporated and the waterpark is dry. This may take 2 hours or more depending on weather conditions.
Blower Set Up

1. Attach long Air Intake Tube on the waterpark to the mouth of the Blower Motor with the attached drawstring. Make sure the Intake Tube is free of twists or kinks.

2. Wrap drawstring around the tube and end of blower once, and tie tightly in place.

3. Tie off the short Air Outlet Tube tightly to make a good seal.

NOTE: Position the blower motor perpendicular and level to the waterpark. Make sure that the blower is upright on a stable surface. Do not place the blower in an area where it can draw up dirt, leaves and other debris. Make sure that the blower is at least 6.6 ft. (2m) away from any structure or obstacle such as a fence, garage, overhanging branches or electrical wires.

BLOWER MAINTENANCE
- Blower must be unplugged before servicing.
- Product should be periodically examined for potentially unsafe conditions such as damaged cord, plug, housing, or parts, and that in the even such damage is found, the product should not be used until properly repaired.
- The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower.
- Do not immerse the blower in water. To clean, wipe with a damp cloth.
- Regularly inspect the intake and output openings and keep free of dirt, leaves, etc.
- When not in use, store the blower indoors in a dry place.
- Store the blower upright on a stable surface.
- Loosely coil the cord and place it beside the blower.
- When in use, do not place the cord across traffic areas, water or damp areas.
- The blower is a high volume blower, capable of moving large volumes of air very quickly. Place the blower in an area where it will not draw in dirt or leaves.

Draining

IMPORTANT - Inflatable waterpark MUST be drained of all water and be COMPLETELY DRY before storage in order to avoid mold and mildew.
DO NOT fold and store waterpark if any moisture remains.
IMPORTANT - All children MUST EXIT the waterpark before deflation or draining water.
IMPORTANT - For best results, 2-4 people should drain and move the waterpark.

1. Turn off the garden hose
   Disconnect

2. Turn off the blower motor and unplug it from the outlet.

3. Move the blower to dry ground if it appears that it will get wet from draining water.

4. As the waterpark deflates, water will find the lowest point and drain from the collapsing pool walls.

5. Once most of the water has drained, lift the bottom of the pool to help the remaining water drain.

6. With help from other adults, lift the pool edge opposite from the drainage area.
**Playing in the Waterpark**

**NOTE:** It is normal to see air bubbles rising from the pool floor and other wet areas of the waterpark.

**SLIDING**
1. Climb up the climbing wall to the top of the slide.
2. Sit on the top with your feet pointing down the slide.
3. Scoot forward and slide down into the splashdown area.
4. DO NOT slide down on your stomach or head first.
5. Do not face the sun when sliding.

⚠️ **CAUTIONS:**
- Children can drown in a very small amount of water. Empty the pool when not in use.
- To avoid the risk of injury, ALWAYS slide down the slide with feet first.
- NEVER slide down on your stomach or head first.
- Only one child should be on the slide and climber at one time.
- Total weight of children must not exceed 350 lbs. (max. individual weight = 110 lbs) on inflated surface.
- NEVER slide down the slide until the splashdown area is clear.
- NEVER slide or jump down the climbing wall.

**WARNING:**
- Children-especially toddlers-are at high risk of drowning. Closely watch children who are in or near this inflatable device. Empty inflatable device or prevent access when not in use.

**Water Warnings on the Waterpark**

**IMPORTANT!**
To avoid serious injury or death, heed all warning signs that are printed on the Waterpark. These signs are shown below:

---

**DANGER**

**NO DIVING OR JUMPING SHALLOW WATER**

DIVING MAY RESULT IN PERMANENT INJURY OR DEATH

- CHILDREN MUST BE ACCOMPANIED BY AN ADULT.
- NO RUNNING, JUMPING, OR HORSEPLAY IN OR AROUND POOL.
- NO GLASS IN POOL AREA

TO AVOID SERIOUS INJURY ALL POOL USERS MUST KNOW AND FOLLOW THESE SAFETY RULES.

**WARNING**

NEVER JUMP OR DIVE FROM ANY PART OF THE WATERPARK!

**WARNING**

ONLY SLIDE DOWN THE WATER SLIDE IN A SITTING POSITION WITH FEET IN FRONT OF YOU.

**WARNING**

BE CAREFUL! SOME OF THE WATERPARK SURFACES ARE SLIPPERY AND MAY PRESENT A TRIPPING HAZARD.

**WARNING**

DO NOT USE OUTDOOR FOOTWEAR ON ANY PART OF THE WATERPARK AS IT MAY BECOME DAMAGED.

---

**Prevent Drowning**

Children, especially toddlers, are at high risk of drowning. Closely watch children who are in or near this inflatable device. Empty inflatable device or prevent access when not in use.

---

**Inflating the Waterpark**

1. Plug GFCI into receptacle.
2. Press reset button.
3. Press test button.
4. Press reset button to use product. Do not use if the button fails to disable the blower.

**WARNING:**
- If the blower remains ON when the “test” button is pushed, the unit is NOT working properly. DO NOT USE THE UNIT. Take the unit to a certified electrician immediately.

**Water Warnings on the Waterpark**

**IMPORTANT!**
To avoid serious injury or death, heed all warning signs that are printed on the Waterpark. These signs are shown below:

---

**DANGER**

**NO DIVING OR JUMPING SHALLOW WATER**

DIVING MAY RESULT IN PERMANENT INJURY OR DEATH

- CHILDREN MUST BE ACCOMPANIED BY AN ADULT.
- NO RUNNING, JUMPING, OR HORSEPLAY IN OR AROUND POOL.
- NO GLASS IN POOL AREA

TO AVOID SERIOUS INJURY ALL POOL USERS MUST KNOW AND FOLLOW THESE SAFETY RULES.

**WARNING**

NEVER JUMP OR DIVE FROM ANY PART OF THE WATERPARK!

**WARNING**

ONLY SLIDE DOWN THE WATER SLIDE IN A SITTING POSITION WITH FEET IN FRONT OF YOU.

**WARNING**

BE CAREFUL! SOME OF THE WATERPARK SURFACES ARE SLIPPERY AND MAY PRESENT A TRIPPING HAZARD.

**WARNING**

DO NOT USE OUTDOOR FOOTWEAR ON ANY PART OF THE WATERPARK AS IT MAY BECOME DAMAGED.

---

**Waterpark Spray Assembly, Part 1**

1. The hose assembly will attach to the waterpark as shown.
2. Connect the single - outlet sprayer to the top of the arch with the hook and loop fastener.
3. Attach the hose over the top and down the side of the arch with the hook and loop fasteners on the arch.
4. HINT: For ease of assembly, attach hose assembly to upper arch as waterpark is inflating.
Staking the Waterpark

⚠️ CAUTIONS: The waterpark and all its anchorage points should be checked before and during use. Reinflate or re-secure as appropriate. DO NOT let children play on the waterpark until it is fully inflated!

1. Secure the waterpark to the ground with the provided stakes. To prevent tripping, pull the stake loops all the way out, then drive stakes completely into the ground.

2. Secure the Blower to the ground with the provided stakes.

⚠️ WATERPARK CAUTIONS:
- Drive ground stakes completely into the ground to avoid tripping hazard.
- Do not use the water slide until an adult has assembled, staked down, and fully inflated.
- Do not set up or inflate the waterpark in windy and/or rainy conditions as wind gusts may cause the park to become unstable and possibly be lifted from the ground.

Waterpark Spray Assembly, Part 2

3. Connect the tubing to the side of the slide with hook and loop fasteners.

3a. Insert the single hole sprayers and valves into the slits on the water cannons and secure with hook and loop fasteners.

4. Attach the final sprayer to the arch with hook and loop fasteners.

5. Attach a garden hose to the end of the tubing assembly behind the slide.

6. Make sure that the tubing assembly is securely attached to the waterpark sides, water cannons, arches and base with hook and loop fasteners.

CAUTION:
- WATER DEPTH NOT TO EXCEED THIS LINE!

CAUTION: DO NOT FILL THE POOL AREA ABOVE THE LINE AS MARKED ON THE POOL WALL.
