### Limited Warranty

The Little Tikes Company makes fun, high quality toys. We warrant to the original purchaser that this product is free of defects in materials or workmanship for one year * from the date of purchase (dated sales receipt is required for proof of purchase). At the sole election of The Little Tikes Company, the only remedies available under this warranty will be either replacement of the defective part of the product or refund the purchase price of the product. This warranty is void if the product has been assembled and maintained per the instructions. This warranty does not cover abuse, accident, cosmetic issues such as fading or scratches from normal wear, or any other cause not arising from defects in material and workmanship.

U.S.A and Canada: For warranty service or replacement part information, please visit our website at www.littletikes.com, call 1-800-321-0183 or write to: Consumer Service, The Little Tikes Company, 2180 Barlow Road, Hudson OH 44236, U.S.A. Some replacement parts may be available for purchase after warranty expires — contact us for details.

*Wet and Dry Inflatable Bouncer Warranty: We warrant to the original purchaser that the fabric in this product is free of defects in materials or workmanship for 90 days from the date of purchase, and the blower is free of defects in material or workmanship for one year from the date of purchase (dated sales receipt is required for proof of purchase). Outside U.S.A and Canada: Contact place of purchase for warranty service.

- **This warranty covers specific legal rights, and you may also have other rights, which vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.**

### CAUTION - ELECTRICALLY OPERATED PRODUCT.

OPERATION OF BLOWER FAN UNIT NOT RECOMMENDED FOR CHILDREN UNDER 14 YEARS OF AGE. AS WITH ALL ELECTRONIC PRODUCTS, PRECAUTIONS SHOULD BE OBSERVED DURING HANDLING AND USE TO PREVENT ELECTRIC SHOCK.

**WARNING:** FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH.

Do not use extension cords with this product. Outdoor use only.

Read all instructions before assembling this inflatable device. Keep instructions for future use.

**WARNING**

- KEEP ALL ELECTRICAL LINES, RADIOS, SPEAKERS AND OTHER ELECTRICAL DEVICES AWAY FROM THE CONSTANT AIR INFLATABLE.
- DO NOT PLACE THE CONSTANT AIR INFLATABLE NEAR OR UNDER OVERHEAD ELECTRICAL LINES.

Contents

- 1 inflatable bouncer
- 7 bouncer stakes
- 1 carrying bag
- 1 blower with GFCI plug
- 4 blower stakes
- 1 hose assembly kit
- 4 repair patches

**![WARNING](image-url)**

Prevent Drowning

Children—especially toddlers—are at high risk of drowning. Closely watch children who are in or near this inflatable device. Empty inflatable device or prevent access when not in use.

Drowning Risk:
- Keep unsupervised children from accessing the pool by installing fencing or other approved barrier around all sides of the Water Park.
- State or local laws or codes may require fencing or other approved barriers. Check state or local laws and codes before setting up the Water Park.
- Drowning occurs silently and quickly. Assign an adult to supervise the Water Park.
- Keep children in your direct sight when they are in or near the Water Park and when you are filling and emptying the Water Park.
- When searching for a missing child, check the pool first, even if you think your child is in the house.

First Aid:
- Keep a working phone and list of emergency numbers near the Water Park.
- Become certified in cardiopulmonary resuscitation (CPR) so you can respond to an emergency.

**Storage**

1. Fold all pieces of the bouncer (i.e. Slide, Air Inlet Tube, etc.) toward the center. NOTE: If bottom surface is still moist, allow it to air dry prior to folding.
2. Roll up the bouncer tightly and compress the fabric to expel all of the remaining air.

**NOTE:** Do not place the Water Spray Tubing inside the bouncer when rolling it up.

**Repair Patch Instructions**

1. Cut a portion of the patch to the size needed and round the corners. (See Fig. 1 & 2).
2. Remove the adhesive backing from the patch material, position the patch over the damaged area and smooth out any bubbles.

**WARNING:** Repair patches must be applied by an adult only. KEEP OUT OF REACH OF CHILDREN.

**Instructions for Bouncer Maintenance**

- As an outdoor product, the **inflatable** is subject to wear and deterioration. Inspect for signs of fabric failure; weak or torn surfaces must be repaired promptly.
- To keep the product clean: wipe the Water Park or blower using a dry cloth or sanitizing solution or pure water.
- Product should never be stored wet. Allow to dry before rolling up.

**Disposal**

- Disassemble and dispose of the equipment in such a manner that no hazardous conditions exist at the time the equipment is discarded.
- Blower should be returned to a collection center capable of processing electrical/electronic waste.

**Instructions for Blower Maintenance**

- Blower must be unplugged before servicing.
- Product should be periodically examined for potentially unsafe conditions such as damaged cord, plug, housing, or parts, and that in the even such damage is found, the product should not be used until properly repaired. If these checks are not carried out, the product could overturn or otherwise become a hazard.
- The blower does not require any lubrication and has no user-serviceable parts. Do not attempt to service the blower.
- Do not immerse the fan in water. To clean, wipe with a damp cloth.
- Regularly check the intake and output openings and keep free of dirt, leaves, etc.
- When not in use, store the blower indoors in a dry place.
- Store the blower upright on a stable surface.
- Loosely coil the cord and place it beside the blower.
- Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
- Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not reuse cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
Draining & Deflation

IMPORTANT: Inflatable bouncer must be drained of all water and be COMPLETELY DRY before storage in order to avoid mold and mildew. DO NOT fold and store bouncer if any moisture remains.

IMPORTANT: All children MUST EXIT the bouncer before deflation or draining water.

IMPORTANT: For best results, 2 - 4 people should drain and move the bouncer.

1. Turn off the blower motor and unplug it from the outlet. Move the blower to dry ground if it appears that it will get wet from draining water.

2. Turn off the garden hose and disconnect it from the Clear Plastic Tubing.

3. Lift the bottom of pool from one side to the other to let the remaining water drain.

4. Leave the bouncer inflated until all remaining water has evaporated and the bouncer is dry. This may take 2 hours or more depending on weather conditions.

5. Re-stake the bouncer and blower, tie the inflation tube to the blower, then reconnect and power up the blower.

6. Remove stakes and drag bouncer away from the drained water to a dry area.

7. Once bouncer is completely dry, turn off the blower and motor and unplug it from the outlet.

8. Remove and drain the Hose Assembly from the bouncer.

Safety Warnings: ELECTRICAL BLOWER

DANGER

• Do not immerse the blower in water. Unplug the blower before cleaning. To clean: wipe with a damp cloth. The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower. When not in use, store the blower indoors in a dry place. Store the blower upright on a stable surface. Loosely coil the cord and place it beside the blower.

• Make sure that the blower switch is in the “OFF” position. Plug the blower into a properly grounded 110-120V GFCI outlet.

• If the GFCI has been tripped, press the “RESET” button to restore power to the blower.

• Set up as close to power source as possible. The product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing or parts, and that in the event such damage is found, the product should not be used until properly repaired. Never leave the blower outside in the rain or exposed to the elements when not in use. When in use, do not place the cord across traffic areas, water or damp areas. The blower should be placed on a stable surface and anchored per product instructions.

• This blower is for residential use only. It is not intended to be used in commercial or industrial settings.

• Never insert fingers, pencils or any other object through the grill at ANY time.

• Do not use this blower with any solid-state speed control device.

• To reduce the risk of fire or electric shock, do not use this blower with any solid-state speed control device.

• WARNING - Electronic hazard - Do not use extension cords with this product.

• WARNING: FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN SERIOUS INJURY OR DEATH. ADULT SET-UP AND SUPERVISION REQUIRED.

Electrocution Hazard - DO NOT USE EXTENSION CORDS WITH THIS PRODUCT.

INSTRUCTIONS FOR BLOWER CLEANING AND STORAGE

Do not immerse the blower in water. Unplug the blower before cleaning. To clean: wipe with a damp cloth. The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower. When not in use, store the blower indoors in a dry place. Store the blower upright on a stable surface. Loosely coil the cord and place it beside the blower.

INSTRUCTIONS FOR BLOWER INSTALLATION

Note: Do not install the paddling pool over concrete, asphalt or any other hard surface.

• Children can drown in very small amounts of water. Empty the pool when not in use.

• Change the water of paddling pool frequently (particularly in hot weather) or when noticeably contaminated.

• Outdoor use only.

• Always unplug the blower before servicing.

• ADULT SET-UP AND SUPERVISION REQUIRED.

• Cautionary statements which should be read before beginning assembly.

• Use only with Ground Fault Circuit Interrupt (GFCI) receptacle.

• WARNING - ELECTRICAL BLOWER

GROUNDING METHODS

This blower is not a toy. Use under the direct supervision of a competent adult. Keep away from children.

READ AND SAVE THESE INSTRUCTIONS.
**Safety Warnings: SET UP**

**ADULT SUPERVISION AND SET UP REQUIRED:** This product should be inflated or deflated only by a competent adult. Follow all instructions provided.

**WARNING:** Falls onto hard surfaces can result in head or other serious injuries. Never place on concrete, asphalt, wood, packed earth, grass or other hard surfaces. Carpet over hard floors may not prevent injury.

- **WARNING:** Only for domestic use. Intended for outdoor domestic family use only. Not for use in public areas or as a rental.
- **WARNING:** Product is heavy. Use caution when lifting.
- **WARNING:** Keep away from fire. Keep fabric clear of all flame and ignition sources.
- **WARNING:** Do not set up in windy or rainy conditions: sudden gusts of wind may lift the product off the ground.
- **WARNING:** The product should be periodically examined for potentially unsafe conditions such as: damaged cord, plug, housing, or parts, and that in the event such damage is found, the product should not be used until properly repaired. Never leave the fan outside in the rain or elements when not in use. Refer to the instructions for set-up, storage, maintenance and care.

- **CAUTION:** the blower is capable of moving large volumes of air very quickly.
- **CAUTIONS:**
  - Children can drown in a very small amount of water. Empty the pool when not in use.
  - To avoid the risk of injury, ALWAYS slide down the slide with feet first. NEVER slide down on your stomach or head first.
  - Only one child should be on the slide and climb at one time.
  - Total weight of children must not exceed 35 lbs. (max. individual weight = 110 lbs) on inflated surface.
  - NEVER slide down the slide until the splashdown area is clear.
  - NEVER slide or jump down the climbing wall.

**Safety Warnings:**

- Constant, competent adult supervision of children and other young users is required at all times.
- Keep the area around the product clean, and dear of objects, to prevent slips and falls.
- Instruct children on proper use of this product. Do not use in a manner other than intended.
- Helmets, headgear, shoes, glasses, loose clothing, scarves, hoods, or clothing containing drawstrings should not be worn when using this product.
- Do not allow other toys or objects inside the product.
- Instruct children not to attach items to the product that are not specifically designed for use with the equipment, such as but not limited to, jump ropes, clothesline, pet leashes, cables and chains as they may cause a strangulation hazard.
- Keep pets away from product.
- Do not operate the equipment near other children.
- Do not allow children to play together who are unevenly matched in weight and height.
- The Maximum fall height of the inflatable device is 56 inches (142 cm).
- Thoroughly dry before use.
- Total weight of children must not exceed 350 lbs. (159 kg) on slide and pool.
- Only one child at a time is allowed to slide and climb.
- Children must not slide down head first on their stomach.
- Do not let children walk on the side where blower motor is attached.
- Always dry product before storage.

- Minimum clearance zones: Place at least 6’ (2m) away from any other objects.
- Objects to be avoided include but are not limited to, fences, buildings, trees, overhead branches, laundry lines, electrical wires, walls, or bodies or sources of water.
- Make sure the area around the product is secure by adding safety barriers, if necessary, to keep young children and pets from gaining access.
- Electrical cord must not be passed under the air filled devices (Inflatable Water Park) and interfere with its operation.
- The Water Park uses a man powered blower (air pump) to maintain pressure, only to be used by an adult.
- The only blower supplied should be used for inflation.
- Do not use extension cords with this product. Set up as close to power source as possible. The blower should be securely anchored to the ground before use. CAUTION: the blower is capable of moving large volumes of air very quickly. Place the blower in an area where it will not draw in dirt or leaves. Keep blower and power cord away from children, water and traffic.
- ATTENTION: Blower should remain on and continuously inflate Water Park during use. Air flow throughvears is normal.
- Do not use the product if wind speed exceeds 20 mph.
- Do not consume food, drink and gum on this product.

**Playing in the Bouncer**

**NOTE:** It is normal to see air bubbles rising from the pool floor and other wet areas of the Bouncer.

**SLIDING**

1. Climb up the climbing wall to the top of the slide.
2. Sit on the top with your feet pointing down the slide.
3. Scoot forward and slide down into the splashdown area.
4. DO NOT slide down on your stomach or head first.
5. Do not face the sun when sliding.

**Water Warnings on the Water Park**

**IMPORTANT:** To avoid serious injury or death, heed all warning signs that are printed on the Bouncer. These signs are shown below:

**DANGER**

- **NO DIVING OR JUMPING SHALLOW WATER**
- **DIVING MAY RESULT IN PERMANENT INJURY OR DEATH**
- **CHILDREN MUST BE ACCOMPANIED BY AN ADULT.**
- **NO RUNNING, JUMPING, OR HORSEPLAY IN OR AROUND POOL.**
- **NO GLASS IN POOL AREA**

**WARNING**

- **DO NOT GO DOWN THE CHUTE BACKWARDS**
- **NO DIVING BACKFLIPS OR SOMERSAULTS**

**ATTENTION:**

To avoid serious injury all pool users must know and follow these safety rules.

**WARNING**

- **Prevent Drowning**

Children especially toddlers are at high risk of drowning. Closely watch children who are in or near this inflatable device. Empty inflatable device or prevent access when not in use.
Staking the Bouncer

CAUTIONS: The Bouncer and all its anchor points should be checked before and during use. Reinflate or re-secure as appropriate. DO NOT let children play on the bouncer until it is fully inflated.

1. Secure the Bouncer to the ground with the provided stakes. To prevent tripping, pull the stake loops all the way out, then drive stakes completely into the ground.

2. Secure the Blower to the ground with the provided stakes.

Bouncer CAUTIONS:
1. Drive ground stakes completely into the ground to avoid tripping hazard.
2. Do not use Water slide until an Adult has assembled, staked down, and fully inflated.
3. Do not set up or the Water Park in windy and/or rainy conditions as wind gusts may cause the Bouncer to become unstable and possibly be lifted from the ground.

Bouncer Spray Assembly, Part 2

1. Turn on the garden hose and adjust the pressure as desired. Make sure that a steady spray of water comes out of the sprayer and keep the slides wet.

Bouncer Placement

Designate a flat, level surface that allows for 6.6 feet (2m) of minimum clearance around the Bouncer.

WARNING! Falls onto hard surfaces can result in head or other serious injuries. Never place on concrete, asphalt, wood, packed earth, grass or other hard surfaces. Carpet over hard floors may not prevent injury.

ASSEMBLY AREA
1. Make sure the assembly area is flat and level and is free of rocks, sharp objects or other obstructions.
2. Do not set up the Bouncer on a slope or incline.
3. Once the Bouncer is inflated or filled with water, do not attempt to drag it to another location.
4. Check your local county or city regulations for requirements on securing the pool.
5. Secure the pool from unauthorized use.

Minimum Clearance Zones

MINIMUM CLEARANCE ZONES
Make sure that there is a 6.6-feet (2m) obstacle-free zone around the product, including the slide and overhead.

INFLATABLE SIZE:
12.9 ft x 12.2 ft x 7.7 ft (3.9 x 3.7 x 2.3 m)

Unfolding the Bouncer

1. Remove contents from the carrying bag.

2. Unroll and unfold the Bouncer in the center of the designated area.

3.  
Blower Set-up

1. Attach long Air Intake Tube on the Bouncer to the mouth of the Blower Motor with the attached drawstring. Make sure the Intake Tube is free of twists or kinks.

2. Wrap drawstring around the tube and end of blower once, and tie tightly in place.

3. Tie off the short Air Outlet Tube tightly to make a good seal.

NOTE: Position the blower motor perpendicular and level to the Bouncer. Make sure that the blower is upright on a stable surface. Do not place the blower in an area where it can draw up dirt, leaves and other debris. Make sure that the blower is at least 6.6 ft. (2m) away from any structure or obstacle such as a fence, garage, overhanging branches or electrical wires.

BLOWER MAINTENANCE
- Blower must be unplugged before servicing.
- Product should be periodically examined for potentially unsafe conditions such as damaged cord, plug, housing, or parts, and that in the event such damage is found, the product should not be used until properly repaired.
- The blower does not require any lubrication and has no user serviceable parts. Do not attempt to service the blower, take it to a reputable dealer.
- Do not immerse the blower in water. To clean, wipe with a damp cloth.
- Regularly inspect the intake and output openings and keep free of dirt, leaves, etc.
- When not in use, store the Blower indoors in a dry place.
- Store the blower upright on a stable surface.
- Loosely coil the cord and place it beside the blower.
- When in use, do not place the cord across traffic areas, water or damp areas.
- The blower is a high volume blower, capable of moving large volumes of air very quickly. Place the blower in an area where it will not draw in dirt or leaves.

Inflating the Bouncer

4. Test the Blower AC Adapter:
   1. Plug GFCI into receptacle.
   2. Press reset button.
   3. Press test button.
   4. Press reset button to us product. Do not use if the button fails to disable the blower.

    WARNING
   If the blower remains ON when the “test” button is pushed, the unit is NOT working properly. DO NOT USE electrician immediately.

5. Re-measure minimum clearance zone prior to inflation.

6. Switch power ON. If blower does not operate when switched on, press the reset button on the GFCI adaptor.

7. The Bouncer will inflate in under 90 seconds. Blower should remain ON to continuously inflate the Bouncer during use. Air flow through seams is normal (do not try repair or seal seams).

Bouncer Spray Assembly, Part 1

1. Make sure the Hose Assembly is attached to the Bouncer as shown. Connect the Tubing to the hook and loop closures down the sides of the inflatable.

Connect the Single - Outlet Sprayer to the top as shown.

Attach the garden hose to the end of the Tubing Assembly.
